

Carter Lake Newsletter

Hello,

This year is flying by! We are towards the end of all the summer events and activities. Our 10u baseball team went all the way to the end of the state tournament and finished in strong 2nd place finish. The 2023 Carter Lake Community Festival was a huge success! I want to thank everyone for coming and taking part. It's always our biggest event of the year and growing larger every year.

The Carter Lake Community Center (CLCC) is under new management. Kendra Hollenbach has been promoted to the position of Carter Lake Community Center Director. She brings a lifelong, local connection to the citizens of Carter Lake. Her experience and knowledge of building recreational programs will make a positive impact to the CLCC. Stop in and take a tour of our facility. We offer programs and activities for all ages. Kendra will still head all of the recreation and sports programs throughout the City of Carter Lake.

The City recently lost two great people. John and Joan Wallace were both lifelong friends of mine. John would call or stop by most days just to talk. He always tried to stay involved with the city he served, for nearly 3 decades, working on the fire department. John attended most council meetings and always gave his opinion good or bad. His daughter Joan was one of the most caring people you could ever meet. She took the time to see how you were doing and was the life of the party. They will be missed.

Sincerely, Ron Cumberledge

City of Carter Lake

950 East Locust Street

HOT PURSUIT 2023

3 MILE FUN RUN/WALK!

This year the Carter Lake Police Department and Fire Department are teaming up!

Proceeds from the run/walk will be donated to the Fallen Officers Organization C.O.P.S and also to the National Fallen Firefighters Foundation.

Saturday, Sept 16 at 8:00 am

Start and end of run/walk will be at the Carter Lake Fire Station

Anyone is welcome, including kids!

Cost: \$40

TO SIGN UP fill out the Google form link below or pick up a form at the Carter Lake City Hall or Fancy Stitching and return to Carter Lake City Hall or Fancy Stitching **by September 1, 2023.** *Please fill out a separate form for EACH participant.*

<https://forms.gle/ZemdcxVqkVPbRMks8>

Payment can be made via PayPal, Venmo or cash drop off at City Hall or Fancy Stitching.

Paypal – clpdofficerrun@gmail.com **Venmo** - @clpdofficerrun

PACKET PICK UP DATE
FRIDAY, SEPT 15TH

5:00 pm – 7:00 pm
at Fancy Stching
in Carter Lake

If you cannot make this time alternate arrangements can be made.

RUN PACKETS will include a dri-fit short sleeve t-shirt or tank (only women's cut tanks available), a cinch bag, and a race medal each with the "Hot Pursuit" design on them.

If you would like to purchase a shirt only, please still fill out the Google form and select the "shirt only" option.

Shirts only are \$22 and will still need to be picked up on **Friday, September 15th** at Fancy Stitching in Carter Lake.

Questions? Please email April Owens at clpdofficerrun@gmail.com or talk to David Huey, 402-510-4569.

AVAILABLE FOR FREE AT CITY HALL

Mosquito Beater WSP

Water soluble pouches (WSP) provide the perfect delivery system for this mosquito larvicide which is made with natural ingredients. Upon dissolving, thousands of floating granules quickly and evenly release the Bti active ingredient across the surface of any standing water.

It is best practice to empty containers and drain pooled water every couple of days to ensure mosquito eggs can't become larvae. Some backyard items and areas are not feasible to drain or keep dry long enough to prevent mosquitoes from growing, so larvaciding is an effective control method.

BEST BACKYARD USES

- Flower pot saucers
- Hollowed tree stumps or branch voids
- Discarded tires
- Roof gutters
- Buckets or containers that can't be stored upside down or dumped
- Folds in tarps
- Anywhere that ponds water for more than 3 days

*It is not advised to use in any potable sources, including pet water bowls and bird baths, as these should be cleaned regularly.

SMALL AREA APPLICATION: To apply this product to small, specific areas such as bird baths, tree holes, flower pots, etc... sprinkle granules onto the area to be treated, at the following rates:

<u>AREA TO BE TREATED</u>	<u>QUANTITY TO USE</u>
1 to 12½ sq. ft.	¼ of a pouch
12½ to 25 sq. ft.	½ of a pouch
25 to 37½ sq. ft.	¾ of a pouch

Application can be repeated every 7 to 14 days, as needed, if environmental conditions favor continuous breeding of mosquitoes. Longer periods of mosquito suppression may result where sufficient numbers of aquatic parasites or predators of mosquito larvae are present, since these are not affected by **BONIDE® Mosquito Beater® WSP™** and contribute to overall reduction in mosquito populations.

BENEFITS

- Easy to use. Place the appropriate amount into areas of standing water or subject to pooling.
- Begins killing exposed larvae within 24-hours and lasts about 2-weeks.
- Uses a naturally occurring bacteria that mosquito larvae can't digest: *Bacillus thuringiensis*, subspecies *israelensis* (Bti).
- Kills mosquito larvae BEFORE become breeding, biting, and potentially disease carrying-adults.
- Kills BOTH daytime and nighttime mosquito larvae.
- Can be used after nighttime temperatures drop below 50°F, unlike fogging.
- Mosquito resistance to Bti has never been documented, unlike other insecticides.
- When granules are added to pooled water, this method of control only kills mosquito, black fly, and midge larvae and is completely safe for terrestrial beneficial insects including bees and butterflies. (Note: Other strains of Bt can cause toxicity to some insect larvae.)
- Designated as non-toxic by EPA and is safe for children, pets, and wildlife. It is approved for organic farming operations. (Note: It is recommended not to leave undissolved granules accessible to curious pets and children to avoid possible consumption and sensitivities.)

For more information, visit <https://www.epa.gov/mosquitocontrol/bti-mosquito-control>
