

Carter Lake Newsletter

Hello,

I just wanted to give everyone an update on the Water System Project. We had an outside firm preform a study and evaluate the city's underground water distributing system. With this information we were able to identify possible funding sources and apply for those grants. We were successful on securing funds thru the county and using our water reserve funds to repair the aging water system. Therefore, last month we engaged an engineer to put together a project build spec plan. The city will send out for bids. This should happen this year and the project should start next spring. I will keep you informed on the next step.

Last month, I had a state official visit the City of Carter Lake. I took a tour around town with her. We toured the parks, the school, the Library and the Community Center. Thereby, making a loop around town and she was very impressed with what she saw. She has never been here before but is trying to visit all the communities throughout Iowa. Her words were, for a small town of 3,783, the City of Carter Lake has many perks. Most small towns in Iowa don't have the amenities which are available to the citizens of Carter Lake. We have all the amenities of a large community located in a well ordered little town. What a GEM!

The credit goes to everyone who calls Carter Lake home. It was very gratifying to have a first time visitor who travels to small towns in Iowa to be so impressed with our community.

Sincerely, Mayor Ron Cumberledge
